

## **TARGETING GATE: TOPPERS TALK**

**Date: 21 December 2024**

**Mode: Online (Google Meet)**

**Speaker: Mr. Gokul L. P – GATE 2023 AIR 386, ICRB (ISRO) AIR 15, ECE Batch 2023, CET**

**Organized by: IET On Campus CET**

**participants: 45**

The *Targeting GATE: Toppers Talk* session, organized by IET On Campus CET, was designed to guide and inspire students preparing for the Graduate Aptitude Test in Engineering (GATE) and other prestigious competitive examinations. The speaker, Mr. Gokul L. P, an accomplished alumnus of CET's ECE Batch 2023, shared his experience of securing an All India Rank (AIR) 386 in GATE 2023 and AIR 15 in the ICRB (ISRO) recruitment process.

The session began with an overview of the GATE examination structure, highlighting the importance of understanding the exam pattern, syllabus distribution, and subject-wise weightage. Mr. Gokul emphasized the need for a structured preparation strategy—starting with the creation of a realistic timetable that balances conceptual understanding with regular problem-solving practice. He stressed the importance of prioritizing high-weightage subjects, selecting credible study resources, and maintaining steady progress through daily goals and weekly revision cycles.

Participants also received valuable advice on leveraging mock tests to assess performance, identify weak areas, and adapt preparation strategies accordingly. Mr. Gokul drew clear comparisons between the GATE and ISRO recruitment examinations, outlining the differences in question style, difficulty level, and evaluation focus. He also provided guidance on preparing for interviews, emphasizing technical depth, clarity of explanation, and confidence.

The session concluded with an interactive Q&A segment, where attendees discussed challenges such as revision techniques, efficient time management, and overcoming exam-related anxiety. The highly engaging and practical nature of the talk made it a valuable resource for aspirants seeking to excel in competitive technical examinations.
