

LUNAR TALK SESSION

Date :25/03/2024

Speaker :Dr S Geetha

Host :IET-On Campus CET

Participants :20

A talk session was conducted on the topic India's Lunar Mission presided by Dr S Geetha, Former Programme Director and Outstanding Scientist. The talk provided a comprehensive overview of India's space journey, emphasizing key milestones. Highlighting ISRO's evolution, Dr. S Geetha showcased the organization's pioneering technological advancements, including indigenous satellite development and enhanced launch vehicle capabilities, which have enabled cost-effective and efficient space missions. The talk not only celebrated past achievements but also laid out ambitious future trajectories, reflecting ISRO's commitment to pushing the boundaries of space exploration.
